STATINTL

- 2. Attended a meeting with Senator McCarran. See Memorandum for the Director this date.
- 3. Mr. Killea of State Department Intelligence talked with me concerning the inspection of the State Department by Mr. Albrook of Senator Case's staff. Mr. Albrook desired certain information regarding a classified figure project of State Intelligence which was in fact the NIS Program Personnel Figures. With Mr. Becker's approval, Comptroller had informed Mr. Killea that there would be no objection to his releasing those figures. Mr. Killea has now informed me that the agreement with Senator Case was that Albrook would receive no classified material and therefore the figures would not be released. I assured him that this was perfectly all right.
